# Sales Associate Trial Agreement

2-Week Paid Trial | 10 Hours per Week + Commission and Bonuses

Company: Steady Hands LLC  Associate: _____

Trial start: _____  Trial end: _____

Work location (state/country): _____

## 1. Trial arrangement and services

This agreement is issued individually to the named Associate for a two-week trial. Contact prospective business customers remotely, describe services and pricing accurately, share website previews, follow up, and promptly record call outcomes and customer information. Trial completion does not promise continued engagement.

Schedule: 10 hours per week for two weeks (20 planned hours), on a flexible schedule coordinated with the company. Accurately record all time worked.

## 2. Compensation and weekly bonuses

| Pay component | Amount | Details |
|---|---|---|
| **Week 1 hourly wages** | **$12.00/hour** | For all Week 1 hours worked. Planned Week 1 wages: $120 at 10 hours. |
| **Week 2 if Week 1 quota is missed** | **Commission + bonus** | $30 per qualifying paid sale plus applicable weekly sales bonus, subject to all legally required wages. See Section 3. |
| **Week 2 if Week 1 quota is met** | **$12.00/hour** | Hourly wages plus earned commissions and applicable weekly bonuses. |
| **Sales commission** | **$30 per sale** | For each qualifying paid sale; paid in addition to wages and earned bonuses. |
| **Weekly bonus: 0-4 sales** | **$0** | Qualifying paid sales in a bonus week. |
| **Weekly bonus: 5-9 sales** | **$100** | Qualifying paid sales in a bonus week. |
| **Weekly bonus: 10+ sales** | **$250** | Replaces, and does not stack with, the $100 bonus. |

A sale qualifies only after client payment is received and verified and the sale is attributed to the Associate in company records.

Weekly bonuses are calculated separately for each Monday-Sunday bonus week in the company accounting timezone. Earned commissions and bonuses are added to applicable wages. Payment is issued every two weeks on Saturday according to the company payment calendar, subject to legally required pay deadlines.

# Performance, Communication and Evaluation

## 3. Trial sales quota and second-week compensation

Sales target: 2 qualifying paid sales during each 10-hour week, for a cumulative target of 4 qualifying paid sales during the 20-hour, two-week trial.

Week 1 pay is protected: The Associate receives $12.00 per hour for all Week 1 hours worked, plus any earned commissions and weekly bonus, even if fewer than 2 sales are completed. Earned Week 1 pay will not be reduced or forfeited.

If Week 1 target is achieved: If 2 or more qualifying paid sales are completed in Week 1, the Associate continues at the $12.00 hourly trial rate in Week 2, plus earned sales commissions and bonuses.

If Week 1 target is missed: If fewer than 2 qualifying paid sales are completed in Week 1, the Associate is ineligible for the company's discretionary $12.00/hour trial rate in Week 2, unless the cumulative catch-up target below is met. For Week 2, the Associate instead earns $30 commission per qualifying paid sale plus any applicable weekly sales bonus. The company will also pay all minimum wages, overtime, and other compensation required by applicable law for all Week 2 time worked. The Week 2 arrangement will be communicated before Week 2 work begins.

Two-week catch-up rule: If the Associate reaches 4 or more qualifying paid sales in total by the end of the two-week trial, the Associate qualifies for the $12.00/hour trial rate for all hours worked during both weeks (up to 20 planned hours), in addition to earned commissions and bonuses. The company will pay any additional Week 2 hourly wages necessary to bring Week 2 to that rate, without reducing earned compensation.

If the cumulative target is not reached: Week 1 hourly wages remain payable. Week 2 compensation remains commission plus applicable bonus, together with any legally required wages. No earned wages, commissions, or bonuses are forfeited.

End-of-trial evaluation: The company will review sales, follow-ups, accuracy of records, communication, professionalism, and company procedures. Trial completion does not guarantee continued engagement.

## 4. Communication and activity

Provide daily updates on activity, significant follow-ups, and blockers; complete a weekly check-in on sales progress and availability. Dialing guide: 15-20 attempted calls per active dialing hour, allowing for discussions and notes. This is a planning benchmark, not a basis to withhold earned pay. Follow applicable calling and opt-out rules, protect customer information, and do not make unauthorized promises.

## 5. Trial end, changes, and earned compensation

The trial is intended to conclude on the end date above unless the parties agree otherwise in writing. Either party may end the engagement subject to applicable law and required notice. All wages, commissions, and bonuses already earned remain payable. Sales targets do not cancel earned compensation. Applicable minimum-wage, overtime, and other employment laws control over any conflicting term.
